The non-profit Devens Eco-Efficiency Center provides a variety of programs and services that help establishments in Central Massachusetts implement and integrate more sustainable business practices into their daily operations. These initiatives provide triple bottom line benefits to people, profits and the planet.

## Benefits Delivered 2008 - 2015

Programs / Services	Social Benefits	Economic Benefits	Environmental Benefits
Educational Workshops, Roundtables	125 forums provided opportunities for collaborative learning and partnering	\$2,738,000 <sup>1</sup>	Resources conserved, used more efficiently with new processes and technologies
Technical Assistance, Develop and Implement Sustainability Programs	75 efficiency programs created better environments for workers, protected jobs	\$594,400 <sup>2</sup>	Resources conserved by recycling; energy use decreased with more efficient lighting, equipment, and conservation campaigns
The Great Exchange	178 firms and institutions partnered, created community relationships	\$247,907 <sup>3</sup>	625,000 pounds of unneeded items and materials diverted from landfill to reuse opportunities
Devens Regional Household Hazardous Products Collection Center	81,875 residents in 12 towns have reduced exposure to toxics	\$480,000 <sup>4</sup>	Household toxic waste managed more responsibly, reducing risk to local environment, water resources
<b>Engaged businesses, non-profits, schools, municipalities</b>	<b>215 entities increased stewardship, contributions to community</b>	<b>\$4,060,307 <sup>5</sup></b>	<b>Resources, energy, materials conserved; waste and pollution prevented</b>

<sup>1</sup> Estimate that after each event, 50% of attendees implement improvements that save \$1,000/year

<sup>2</sup> Reduced disposal, energy costs based on annual savings achieved by new initiatives, programs

<sup>3</sup> Repurposing unneeded materials decreases disposal and purchase costs

<sup>4</sup> Regional service saves member municipalities an average of \$10,000 per year

<sup>5</sup> Savings calculations based on information shared and conservative estimates
